Welcome to

CYRANEX

Decentralized Growth. Community-Driven Wealth.

Earn passive and active income by contributing USDT and growing your network.

What is CYRANEX?

Binance Smart Chain

2

Built on Binance Smart Chain (BEP20) — fast, secure, and low cost

Smart Contracts

3

Uses smart contracts no middlemen or delays

CYRANEX Overview

Blockchain Technology

1

A blockchain-powered platform where you earn by contributing and referring

ROI + Referrals

4

Combines ROI (returns) + Referral Bonuses + Token Growth

Anyone can join. No technical knowledge needed. Just your crypto wallet and USDT.

Understanding Blockchain & Decentralization

What is Blockchain?

A secure, digital record of transactions

Visible to everyone, stored forever

No data can be changed or deleted
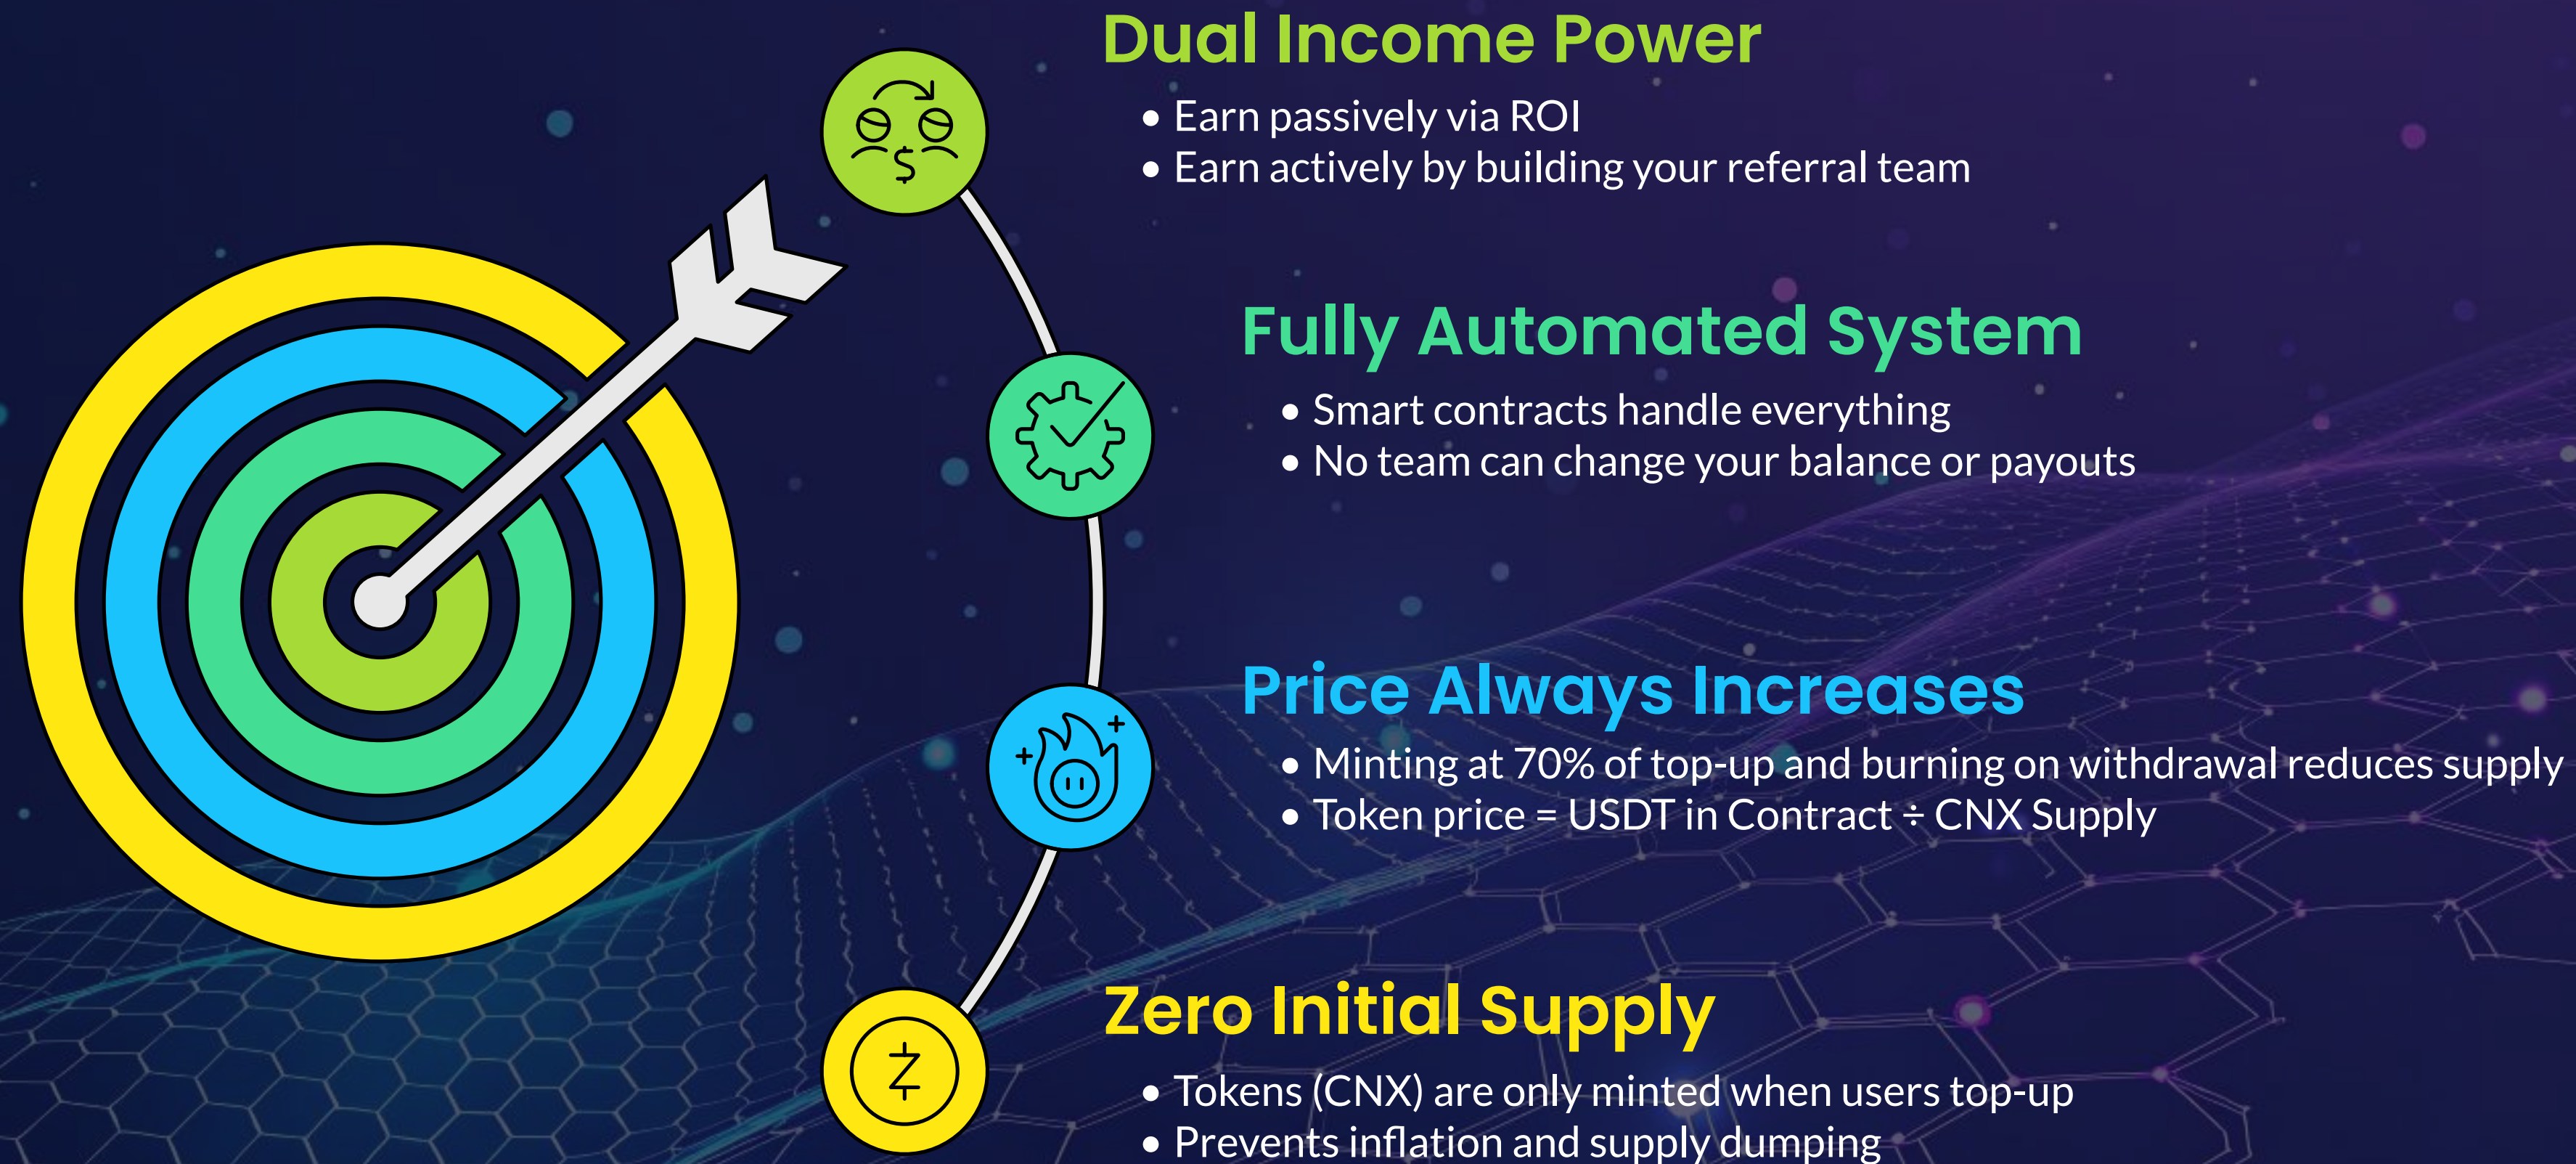

What is Decentralization?

No central authority (like a bank or admin)

All operations are automated by code

Users keep full control of their funds

CYRANEX is built on these principles — secure, transparent, and user-owned.

What Makes CYRANEX Unique?

Dual Income Power
- Earn passively via ROI
- Earn actively by building your referral team

Fully Automated System
- Smart contracts handle everything
- No team can change your balance or payouts

Price Always Increases
- Minting at 70% of top-up and burning on withdrawal reduces supply
- Token price = USDT in Contract ÷ CNX Supply

Zero Initial Supply
- Tokens (CNX) are only minted when users top-up
- Prevents inflation and supply dumping

Trust the system. Earn from the ecosystem. CYRANEX rewards you both ways.

How It Works – Step-by-Step

Connect Wallet & Register

Use referral link or referrer's wallet address

Top-Up with USDT (BEP20)

Minimum $50, and multiples

CNX Tokens Minted (70% of Top-Up)

Stored in smart contract

Earn Weekly ROI (3.0%)

Claim every 7 days

Refer and Unlock Bonuses

Direct & team-based income

Withdraw CNX Tokens

10% burned, 5% admin, 85% to you

Sell CNX for USDT

Tokens burned, 95% USDT returned

Your activity + your referrals = your growth in CYRANEX.

Real User Example – Top-Up & Minting

User tops up with $500 USDT

Allocation	Value	Description
Admin Fee (5%)	$25	Sent to admin wallets
Remaining in Contract (95%)	$475	Used to support token liquidity
Token Minting Base (70%)	$350	70% of top-up is used to mint CNX tokens
Minted CNX @ $4/token	87.5 CNX	Stored in contract until user withdraws

User does not receive tokens immediately — they're reserved and issued only during withdrawal.

Weekly ROI – Earn While You Sleep

Every user earns 3.0% ROI weekly on their USDT top-up

ROI is claimed manually once every 7 days

Smart contract tracks claim time — no guesswork

ROI continues until user has claimed 2x of their top-up amount

Stable, automated passive income secured by smart contract.

Referral Income – Build & Earn Together

Direct Referral Bonus

Earn 10% of every direct referral's top-up instantly

No limits on number of referrals

Example: Refer someone who tops up $1000, You earn $100

Team ROI Bonus (Up to 20 Levels)

Earn when your downline claims ROI

Levels unlock as you refer more users (1 direct = 1 level)

Example: Level 1: 15% Level 2: 5% Level 3–20: 5% to 0.5%

Unlock deeper income levels by growing your team. Your network is your net worth.

Fast Start Bonus – Early Hustle = Big Reward

How It Works:

- You have 15 days from registration to earn extra bonuses
- Bonus is calculated from first top-ups of referred users
- The more people you refer early, the higher the reward

Bonus Tiers:

Referrals in 15 Days	Bonus %	Applies To
5-14 Directs	3%	First 5 Direct's First Top-up
15-24 Directs	5%	First 15 Direct's First Top-up
25+ Directs	10%	First 25 Direct's First Top-up

Act fast. Build early. Unlock maximum rewards.

Withdrawing Your Earnings – The Smart Way

Step-by-Step Logic:

- **User withdraws their earned USDT income**
- Smart contract converts the USDT value into CNX tokens using the current price:
  Token Price = USDT in Contract ÷ Total CNX Supply
- CNX Tokens are then processed with deductions:
  - **10% Burned** (deflationary)
  - **5% Admin Fee**
  - **85% Sent to User's Wallet**

Example Calculation:

Withdrawable Amount: $400

CNX Price: $4 → CNX Tokens = 100

>>10 CNX Burned, 5 CNX to Admins, **85 CNX to User**

Withdrawal Cap Rule:

Users can only withdraw up to 2× their total top-up

Re-top-up required to withdraw more

Burning = Higher Future Value. Withdrawing = Controlled Circulation.

Selling CNX – Convert to USDT, Boost the Price

How Selling Works:

- **User chooses to sell CNX tokens back to the contract**
- Contract calculates value based on live token price
  Token Price = USDT in Contract ÷ Total CNX Supply
- Smart contract executes sale:
  - **100% of CNX tokens are burned (reduces supply)**
  - **User receives 95% USDT equivalent**
  - **5% stays in contract to increase liquidity**

Example Calculation:

Selling 100 CNX @ $4 = $400

>> 100 CNX Burned

>> User receives $380 USDT

>> $20 remains in contract to boost price

Every sale reduces total supply, pushing the CNX price higher over time.

Why CYRANEX is Built to Last

Deflationary Supply via Burning
- CNX supply constantly reduces
- Burn on withdrawal and sales boosts price

Autonomous Smart Contracts
- Fully automated logic, no human control
- Transparent, audited, and tamper-proof

Real USDT-Backed Liquidity
- Every CNX minted is backed by locked USDT
- Token price is real and verifiable

Zero Pre-Minted Tokens
- CNX is only created when users contribute liquidity
- No inflation or dump risk

No central control. No hidden manipulation. Just a fair system designed for real value.

How Cyranex Ensures Long-Term Performance

Built for Scale: Event-Based Smart Contract Design

- Cyranex uses event logs to track ROI claims, team bonuses, and referrals

- Reduces gas cost per transaction

- No on-chain history arrays = no storage bloat

- Ideal for scaling to 10M+ users

- Compatible with data indexers like The Graph for fast frontend rendering

Gas-Efficient

Scalable

Decentralized Audit Trails

Cyranex is engineered for growth—our event-driven smart contract ensures low gas, high speed, and seamless scalability across millions of users.

How Much Can You Earn with CYRANEX?

Income Streams Summary Table (Top-up $500 Assumed):

Action	Income Type	Example Return
Weekly ROI	Passive Income	$15/week on $500 top-up
10 Direct Referrals	Referral Bonus	$500 (10 × $50)
Team ROI (Levels)	Network Income	Depends on team growth – up to 20 levels
Fast Start Bonus	Launch Incentive	$75–$1250 in first 15 days (5 to 25 Directs)

Combine all four income streams for powerful compounding growth.
Earn while holding, referring, and growing your network.

Safety & Transparency – You Control Everything

Trust-Building Features:

Immutable Smart Contract
- Ownership renounced
- No one (including developers) can alter the logic

Non-Custodial System
- Users retain full control of funds via wallets
- No centralized dashboard storing your money

Fully On-Chain
- All transactions are recorded on Binance Smart Chain
- Anyone can verify actions via BscScan

Automated Rewards
- Earnings and bonuses are distributed automatically
- No human interference or delays

Transparent. Autonomous. Auditable. CYRANEX is built for true financial freedom.

Start Earning with CYRANEX Today

3 Easy Steps to Begin:

- Visit https://wwww.cyranex.net

  -> Access the platform securely from your browser

- Connect Your Wallet

  -> Use MetaMask or any Web3-compatible wallet

  -> No sign-up required — your wallet is your identity

- Top-Up with USDT (BEP20)

  -> Start with as little as $50

  ->Begin earning ROI & bonuses immediately

Start earning. Start growing. Start your journey with CNX now.

Earnings Disclaimer

CYRANEX is a fully decentralized platform operated entirely through immutable smart contracts deployed on the Binance Smart Chain (BEP20).

There is no central owner, admin, or controlling authority. All transactions, income logic, and bonus distributions are governed automatically by the smart contract code.

Any income potential or earnings mentioned in this presentation — including ROI, bonuses, and growth examples — are for informational and illustrative purposes only. They represent assumptions based on ideal conditions and may not reflect actual future outcomes.

Your actual results may vary depending on individual participation, referral activity, token price movement, and other user-driven factors.

Participants are solely responsible for their decisions and should conduct their own research before interacting with the smart contract.

By participating in CYRANEX, you acknowledge that earnings are not guaranteed and that all outcomes are automated, transparent, and irreversible once executed on-chain.

Join the CYRANEX Movement

CYRANEX is more than a platform.

It's a decentralized opportunity for anyone, anywhere — to earn, grow, and thrive.

Whether you're a network builder, investor, or simply exploring Web3 income — you belong here.
